Annual Symposium 2015

Best Practice for Health and Safety Engineering

12 May 2015 (Tuesday)

YMCA, North Wing, 4/F, 41 Salisbury Road, Tsim Sha Tsui

Introduction:

Safety is always important in planning, design and construction of buildings and infrastructure development. It is also important for professionals who are responsible for building and infrastructure development operation, maintenance and management industry. HKIE SSC believes that 'Best Practice Sharing' is a very important pillar to the success of safety management.

In this Annual Symposium 2015, speakers from different areas will present their research findings, views and experiences for the best practice of health and safety engineering to design, construction, management, industrial and operations. This would make our Conference more informative and comprehensive and in line with our theme of "Best Practices for Health and Safety Engineering". We believe all participants will benefit from this Symposium.

Time	Event & Speaker
